Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE +3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The amendments of 04/11/2007 have been entered in full. Claim 11-17 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Claims 1-10 and 18-27 are under examination.
2. All prior objection/rejections not specifically maintained in this office action are hereby withdrawn.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1,6,18, and 23 remain rejected under 35 U.S.C. 102(b) as being anticipated by US Patent 6245898, June 12, 2002. Applicant's arguments filed 04/11/2007 have been fully considered but they are not persuasive. As noted in the rejection of record, Patent 6245898 discloses mAB 41-2. Applicant generally argues that Patent 6245898 does not fully describe the antigen to which mAB 41-2 binds and that the disclosed partial amino acid sequence differs from that of CDCP1 and, therefore, Patent 6245898 does not describe an antibody that binds the same antigen as the instantly claimed antibodies. However, mAB 41-2 is inherently capable of immunospecific binding to CDCP1 as evidenced by the Hooper *et al.* reference of record. Therefore, mAB 41-2 meets the limitation “binds to the same antigen” of instant claim 1. This rejection could be overcome by changing “antigen” to “epitope”.

Conclusion

5. Claims 1,6, 18, and 23 are rejected.
6. Claims 2-5, 7-10, 19-22, and 24-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
